

Judith

A deuterocanonical book, named from its leading character. There is general agreement that the book was originally written in Hebrew, but it never was admitted into the Hebrew canon, although it was recognized as canonical by the third Council of Carthage (ad 397) and also by the Council of Trent (ad 1545). The Maccabean era, and more specifically the persecutions by Antiochus Epiphanes (175–164 bc), are thought to have been the occasion most likely to have produced literature of this kind. The book is an attempt by a Palestinian Jew to encourage his fellow Jews in resisting their enemies and in continuing to observe the law of God faithfully. Judith, the heroine, is blest with the happy combination of a rigorous observance of the law and a cunning bravery amidst great danger.
