No additional restrictions — You may not apply legal terms or technological measures that legally restrict others from doing anything the license permits.

This is a human-readable summary of (and not a substitute for) the license. To view a copy of this license, click [here](#).

La Mission Baptiste du S&eacute;n&eacute;gal is pleased to give you permission to use any of the scriptures on <http://biblewolof.com> and in these apps (hereafter referred to as the Work) as long as you give credit to MBS with a copyright notice, and you do not modify or mix the work, and do not sell materials at a price over the cost of reproduction.

In other words, you may download the Work and share it with others as long as you credit us, but you can&rsquo;t change the Work in any way or use it commercially (for profit).

If we give you permission to do a re-mix (combining the scriptures in wolof with your own materials translated in wolof), we will ask for a sample translation or audio recording to approve first, before any distribution. Materials badly translated and voices with a foreign accent impair the credibility of the scriptures.

To ask permission to do anything outside the scope of this license, contact us.
